Product Line

What's inside matters most.

We lead the industry in quality and safety.

THERALOGIX
Supplements from Science

Supplements from Science

Scientifically Formulated

Science is at the heart of health. It's also the backbone of our brand.

Over the past two decades, we've focused on creating high-quality, research-based supplements. We enlist the help of our Medical Advisory Board (MAB), composed of physicians, outstanding research scientists, and faculty members of leading U.S. medical schools, to stay abreast of current scientific research, approve new supplements, and offer guidance to improve existing formulations. You can be confident that every Theralogix product has solid scientific evidence to back it up.

Premium Ingredients

What goes into your supplements determines what you get out of them. We work with top manufacturers in the United States to source the best raw materials for our products, always prioritizing quality and performance.

Independently Tested & Certified

Theralogix partners with NSF® International, a global leader in dietary supplement testing and certification, to verify our products for content accuracy and purity. This means that what's in the product matches the label, and it's free of harmful contaminants and undisclosed ingredients.

Trusted by Healthcare Providers & Patients

Physicians and other healthcare providers across the country trust Theralogix – not just for themselves, but for their patients, too. After working directly with healthcare providers since 2002, we're one of the top physician-recommended brands in fertility, urology, rheumatology, women's health, and more.

TheraCran® One

The only cranberry supplement independently tested and certified by NSF® International for its purity and soluble PAC content

- Daily protection: 36 mg of soluble proanthocyanidins (PACs) from the juice component of the extract to block p-fimbriated E. coli bacteria from adhering to the urinary tract*
- Also provides PACs from the whole cranberry, resulting in multiple modes of action – benefits in the gut and the urinary tract*
- Chosen as ConsumerLab's "Top Pick" cranberry supplement for the prevention of urinary tract infections (UTIs)

1 capsule a day

90-day supply

\$77 with preferred pricing

TheraCran® Max

A combination of whole cranberry extract and d-mannose to provide broad-spectrum protection for urinary tract health*

- Daily defense combination: 40 mg of juice-derived soluble PACs plus 1,000 mg of d-mannose
- Dual-action support: Cranberry and d-mannose bind to E. coli to help flush the bacteria from the urinary tract*
- The only cranberry and d-mannose supplement independently tested and certified by NSF® International

2 capsules a day

90-day supply

\$98 with preferred pricing

Mannose One®

An unflavored d-mannose powder to support urinary tract health*

- Provides 2,000 mg of d-mannose per packet to prevent E. coli bacteria from adhering to the urinary tract*
- D-mannose binds to type 1 fimbriated E. coli, helping flush and protect the urinary tract*
- The only d-mannose supplement independently tested and certified by NSF® International

1 packet a day

90-day supply

\$62 with preferred pricing

UTI Prevention Bundle

TheraCran One + Mannose One for the most comprehensive protection against UTIs*

- Optimal daily defense*
- Provides full evidence-based dose of soluble PAC cranberry and d-mannose at a discounted bundle price
